

Lucky You!

You get the number bag!

Inside this folder is a card with a number written on it, or several numbers from which to choose.

Look at the numbers and talk about their names and count the dots on the card(s). Choose the number you want to share.

You can bring anything you want in that quantity. (For example, for the number 3 you may want to bring three toy cars or three favorite rocks.)

Tomorrow you will show and tell about what you brought. Then we will count your items together and match them to the correct number card!

**If your child has something really special they want to share, you are welcome to use some creativity to make it work for the number bag. (For example, if your child has a new doll she wants to share, but has the number 3, you might put in the doll along with two dresses the doll might wear. Or send the doll along with two other toys. Do what interests your child most --- we can be flexible!)*
